Fire-proof buildings are the best fire-exit.

These are Carlyle Harris's real days of fate.

Capital punishment, strictly dealt out for murder, is the State's self-defense.

The People and the Law should be
in Combs which no Trust could beat.

Brooklyn's new song of boudoirs is abounded in discords, as rehearsed in the Board of Aldermen.

Brooklyn dust is apparently of two sorts. One kind is thrown into people's eyes; the other goes into the boudoirs' pockets.

Suppose it were a question of Home Rule in England with which Britain had to deal? Would the debate in Commons be as long?

A jug is only a small load. South Carolina will find it has acquired much more than that in taking up the system of liquor-dealing by the State.

That World's Fair strike was rapid in its growth and its end. Everybody should be pleased that the work for the big Exposition is not to be impeded at this critical period.

Not only the case of Carlyle Harris, but the question of the equity and efficiency of the State's whole court system, in its trial and appellate branches, is submitted to Gov. Flower.

Peru makes reparation gracefully for the attack on the American Consulate at Mollendo. What chance would the "vicious foreign policy" of the late Administration at Washington have had in this case?

Dr. Haffkine, in India, declares that he has conquered cholera by a new method of inoculation. This does not affect the call of the hour in New York, to prepare to avert a possible cholera invasion by the old and sometimes neglected methods of personal and municipal cleanliness.

Brooklyn's Board of Aldermen gave valuable electric street railway franchises to companies which bid nothing for the privileges, while another company stood ready to pay \$200,000 into the city treasury for the same privileges. It may be remarked that the franchises were not the sole subject of the "give-away" in this action.

Two attempted assassinations of titled personages were reported by cable yesterday. A fanatic with an open knife attacked the Cardinal Primate of Hungary, and a young fellow with a revolver, at Lisbon, fired a shot, which fortunately went over King Carlos's head. Assassination is the resort of cowards or dangerous cranks. Its failure is always to be observed with gratification.

A bicyclist who ran down a pedestrian in a city street yesterday was arrested and fined, not so much for the running down as for his impudence when the pedestrian arose and remonstrated with him for not ringing his bell. The punishment was eminently proper. Bicyclists have rights which the public are always ready to acknowledge. But those rights are not above those of the people on foot, and do not abrogate city ordinances.

A public notice was issued yesterday and displayed in prominent places in Westchester, Dutchess, and Putnam Counties calling the attention of the inhabitants to section 38 of the Penal Code which makes it a misdemeanor to deposit or throw into any public waters or into any stream running into or supplying such public waters any noxious, offensive or poisonous substance what-

ever. The notice says that any person offending against this provision of law will be prosecuted.

This is a useful notice. It will be carried out immediately, and if half a dozen severe examples are made by the imprisonment of offenders for a year and the infliction of the limit of the fine, it will do much to aid the purification of the water now being attempted by the authorities.

FIGHT UNDER THE LAW.

Judge Emery Speer, in the United States Circuit Court at Macon, Ga., has decided that the receiver of the Georgia Central Railroad must carry out the contract with the Brotherhood of Locomotive Engineers, which was in force when he was appointed to the receivership. The Judge prays the Brotherhood for having sought the arbitration of the Court for the settlement of a controversy relative to the wages and conditions of their employment.

Referring to Rule 12 of the Brotherhood, Judge Speer says it is plainly in restraint of trade or commerce, and as such it renders those men who combine under it to hinder and delay the work of the transportation company liable to the penal provisions of the law. He adds that a combination or agreement of railroad officials or other representatives of capital, with the same effect, will be equally under the ban of these penal statutes.

Organized labor, Judge Speer says, when injustice has been done or threatened to its membership, will find its useful and valuable mission in presenting to the courts a strong and resolute protest and a petition for redress against unlawful trusts and combinations which do unlawful wrong to it. The Judge asserts that labor need not doubt that speedy and exact justice will be administered wherever the courts have jurisdiction.

The Evening World was correct when it declared that the Ohio decision against the Brotherhood of Engineers in the Ann Arbor cases must necessarily apply to combinations of capital as well as to combinations of labor.

BOODLE IN BROOKLYN.

Some people obstinately refuse to learn from experience. The Boodle Aldermen of Brooklyn yesterday cast aside the lesson taught them by the fate of the New York Boodle Aldermen of 1884, and rushed through a number of free trolley railroad franchises for corporations in a reckless manner that may lead to a repetition of the developments of that famous year in New York's municipal history.

Reports were made from committees whose members had not been notified of a meeting. Franchises for which large sums of money had been offered by some competitors were bestowed on others for nothing. The grab was pushed through remorselessly, despite the protests and denunciations of the honest members of the Board.

In fact, the performance so well remembered in our own Aldermanic chamber nine years ago was re-enacted yesterday in Brooklyn. It will be the people's fault if it does not have the same finale.

THE DEATH PENALTY.

The Senate and the Assembly antagonized each other yesterday on the bill to abolish capital punishment, and to substitute for it imprisonment for life. The Assembly passed the bill by a vote of 38 to 30, while the Senate defeated it by 24 to 8.

The argument in the Senate against the bill was strengthened by the suggestion that the matter had better be left to the decision of the Constitutional Convention.

The majority of the people of the State are probably opposed to the abolition of the death penalty. It is believed by many that nothing but capital punishment can prove a protection against murder, and the subject is too serious a one to submit to experiments in legislation.

Brooklyn's Board of Aldermen gave valuable electric street railway franchises to companies which bid nothing for the privileges, while another company stood ready to pay \$200,000 into the city treasury for the same privileges. It may be remarked that the franchises were not the sole subject of the "give-away" in this action.

Two attempted assassinations of titled personages were reported by cable yesterday. A fanatic with an open knife attacked the Cardinal Primate of Hungary, and a young fellow with a revolver, at Lisbon, fired a shot, which fortunately went over King Carlos's head. Assassination is the resort of cowards or dangerous cranks. Its failure is always to be observed with gratification.

A bicyclist who ran down a pedestrian in a city street yesterday was arrested and fined, not so much for the running down as for his impudence when the pedestrian arose and remonstrated with him for not ringing his bell. The punishment was eminently proper. Bicyclists have rights which the public are always ready to acknowledge. But those rights are not above those of the people on foot, and do not abrogate city ordinances.

A public notice was issued yesterday and displayed in prominent places in Westchester, Dutchess, and Putnam Counties calling the attention of the inhabitants to section 38 of the Penal Code which makes it a misdemeanor to deposit or throw into any public waters or into any stream running into or supplying such public waters any noxious, offensive or poisonous substance what-

notwithstanding his seeming self-sacrifice in their behalf the physician accumulated wealth; in fact, the town's people had already begun to look upon him as something of a millionaire.

Not until the health authorities took hold of his pigs and rudely evicted them from their riverside villa was the secret revealed of the relations that existed between the pig prescriber and his "clients." They were part of his business, it now appears. While they seemed to live and wallow on the river's brink, they were really active and untiring in interstate manufacturing and garment-semitating, and every aqueous molecule that flowed by their sty to the rivulets of Waterbury houses bore their trade mark, and helped to make patients for the doctor, to whom they were so dear and yet so cheap.

The pigs made Waterbury people sick, the pigs physician cured the people, or tried to, securing pay in either case. What a splendid object lesson this for other doctors! The wonder is that an underling or two failed to interest in the pigs.

MRS. DEPEW RETURNS HOME.

Old Point Comfort Too Bustling and Noisy for Invalida.

Mrs. and Miss Chamberlain M. Depew returned this morning from Old Point Comfort, Va., where Mrs. Depew had been sojourning for the benefit of her health.

Mrs. Depew said that owing chiefly to the noise and excitement resulting from the arrival of people gathering at the Point to witness the naval displays, Mrs. Depew had experienced little improvement.

Mrs. Depew left the city yesterday, accompanied by Dr. Mann, to Old Point comfort, and after seeing Mrs. Depew, it was determined that her own home, where she could have the best of care, was the proper place for her.

Confidence in his ability to do a lot of things, Mr. Williams, the manager of the Club of New York, has been given a week next Monday next at Coney Island for the weight-meet championship and a \$100 purse. This is a sample of Smith's confidence.

What makes long fights interesting is standing back and drawing back and waiting. I have been in the gallery in the big hall of the Knickerbocker Club, and have seen many a man go through a hard day's work, but I have never seen anything like the way that my wife does it. Perhaps it is because I have not been burned out by the things that I have put into it.

Hannibal French, who was a young Johnnie in the preliminary tennis about, having informed the management of the Conch Island Athletic Club that he could not compete in the weight-meet championship, was compelled to withdraw.

Mrs. Depew, left the city yesterday, accompanied by Dr. Mann, to Old Point comfort, and after seeing Mrs. Depew, it was determined that her own home, where she could have the best of care, was the proper place for her.
